Fundamentals

There's hardly a golfer on this wonderful planet that doesn't innately possess the required ability to skillfully play a commendable game of golf. However, because of a couple of deceptions in the golf swing, many of these golfers cannot get the ball to go to where they want it to go. This phenomenon causes many unenlightened golfers to wrongfully doubt their ability to actually play the game of golf. All this can be avoided by golfers understanding that: 'first, there is the swing - and then, there is golf'. A golfer who has learned how to get the ball to go to where they want it to go, can now devote their full mental and physical resources to the actual act of playing the game of golf.
